

**PROHIBITION ON USE OF AEROSOLS, ROOM DEODORIZERS, AND OTHER  
AIRBORNE CONTAMINANTS IN SCHOOL FACILITIES**

As many persons are allergic to and/or very sensitive to various aerosols, room deodorizers and other airborne contaminants, no such product may be brought into and/or used in any school facility. Any employee or other person who is uncertain whether a particular airborne product is subject to the prohibitions in this policy shall first contact the building principal who shall determine the same, and his/her decision shall be final. The building principal may order any person in his/her building to immediately cease using any such product, and not to use any such product in the future within the same building.

Adoption Date: June 4, 2013  
Effective June 4, 2013
